What's on the web page…..

On the left you will find various instructions, rules, player lists/defaults, and historical information. In the main area you will start with the Notes. This is where we will communicate any relevant information. Please review this area often to stay informed. The Weekly links (Week-1, Week-2, etc.) is still where to go to view lines, everyone's picks and results. Lines will still be posted Monday or Tuesday morning at the latest. After the weekly deadline, Thursday at 6PM every week (except Thanksgiving), everyone's picks will be posted. Weekly results will be posted after games are played.

The Submit Picks link……

You have the responsibility to submit your own picks each week.

You will manage your own defaults.

That's pretty much it. This program removes almost all of the weekly manual labor to run this pool. That has allowed us to open the pool up to more players and thus, bigger pots. Thanks for holding up your end of things.

When you establish your entry in the league with Andy your nickname will be your userid for to submit picks. Andy will give you an initial password that you should change. The passwords are non-expiring so you can leave it once it is changed.

IMPORTANT!!….After you create your account MAKE SURE TO ENTER YOUR DEFAULTS!!!! If you do not we will enter random numbers for you. You are able to change your defaults at any time.
